SCHOLARSHIP FUND

Every year we give scholarships!

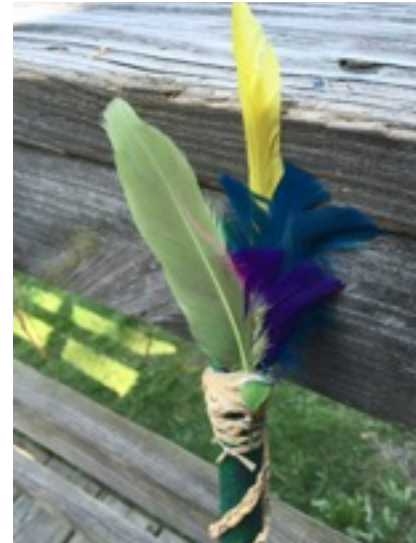

It is our goal to have as many scholarships as possible. We raise funds year round to enable children from families in need to come to our camps. The registered children and our fund raising enable us to provide a magical experience for our participants.

In 2016 we offered 3 full scholarships to children as well as 6 partial scholarships.

You may donate on our web site at:

MAGICAL EARTH WOMEN

Connecting Women in Nature!

Reconnecting women in nature providing the opportunity for introspection, release and play while creating brighter futures for our participants. The profits from these programs help children to come to our summer camps on scholarship.

Magical Earth Women helps women lead a positive, successful and fulfilling life. We run women's retreats, mini-retreats, circles and gatherings in nature. We teach the old wisdoms of listening and learning from and in nature.

We are passionate about women gathering together and forming life-long friendships and support networks to help them achieve their life's purpose.

FUND RAISING

What has been successful!

Magical Earth Retreats has done direct mailings to like-minded, socially responsible individuals and companies and also to previous parents.

In 2017 we have applied for one grant from awesomefoundaton.org to help with our Radiant Enchantress Initiative. The application is still pending.

The results of these fund raising efforts along with the paying participants allow us to offer so many scholarships to children who otherwise would not be able to attend summer day camp..

PROFIT AND LOSS

Growth is envisioned

After seven years of operation we are starting to see improvement in our bottom line. In 2016/17 we invested in education related to running successful destination retreats which will help us expand our programming in the future.

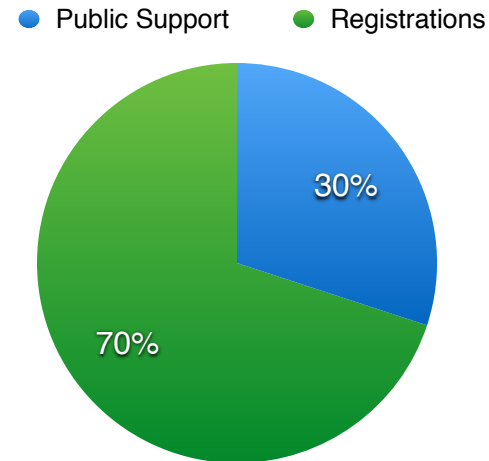

In 2018 we plan on running several women's programs. These gatherings and retreats will be profit centers and all profits will be used for the children's scholarship program, as well as some of our operating costs.

Please note that in 2011 we received several large donations from family members. As such that skews the data a little for the five year period.

Increasing fund raising efforts

In 2017 we raised just under \$1500 for our scholarship program which is less than in 2016. Our goal is to exponentially increase scholarship funds in the next few years, thus enabling us to dramatically increase the number of scholarships.

We also increased the amount of registration fees by adding more summer camps.

Additional efforts will be put in place to ramp up our fund raising efforts.
